TO SELL: Shorthorn cows, calves, steers and bulls. Bulls must be registered. Anyone may consign one bull.

Anyone wishing to consign more than one bull must consign an equal number of females or steers. Unregistered she stock may sell provided it is purebred beef type Shorthorn and of sufficient quality. Cross bred calves may be sold provided that both parents were beef stock and that one parent was Shorthorn and that they are of sufficient quality. The Sale Committee will have the authority to determine whether or not animals meet the necessary qualifications to sell.

HEALTH REQUIREMENTS: All females over 24 months of age must show a negative T.B. and Bangs test within 30 days of sale date. Females under 24 months but over 4 months of age must show either a certificate of official calfhood vaccination or a negative Bangs test made within 30 days of the sale date. An individual Health Certificate must accompany each consignment.

MANNER OF SALE: Sale order will be club calves, bulls, females, and steers. Club calves will be sold singly or grouped by ownership and the breeder of the cattle will be identified. The Sale Committee will determine the order of sale for the first 10 head of bulls and up to the first 20 head of females, the exact number to be at the discretion of the Sale Committee. The remainder of the bulls will sell by age, beginning with the oldest and going to the youngest. The remainder of the females will sell following the bulls in order of age, youngest selling first down to the oldest. Sale Committee reserves the right to change the order of the sale where such changes will be to benefit of the sale. Manner of sale, that is whether by the pound or by the head, is at the option of the consignor. Consignments may be combined at the option of the consignors affected. Title to the stock transfers at the time the auctioneer accepts the final bid.

October 1, 1974

Dear Shorthorn Friend:

Last year, at this time, it was horizons unlimited in the cattle business. This year we are trying to find the horizon.

During the past few years we witnessed the development of the feed lot industry, in a very short period of time, to a point where it became a major factor in the industry.

The change in price relations between cattle and grain indicate that feeding operations, as they have been conducted during the past few years, will change. The cost of grain, as it relates to the price of cattle, indicates a much greater proportion of cattle weights will have to be put on in the consumption of roughage rather than be the feeding of grains. This could change the type of cattle in demand from the so-called stretchy, big framed cattle to types that flesh more easily.

Any period of change offers an opportunity to the more alert and observant to anticipate accurately the market needs of the future. In the depressed condition of the market, there is an opportunity for the smart buyer to meet the future needs of the market at lower costs.

We invite you to take advantage of the buying opportunities offered in the 4-State Shorthorn Associations Fourteenth Annual "Off the Grass" sale.

Yours truly,

Allen McReynolds
Sales Manager

STANDARD GUARANTEE

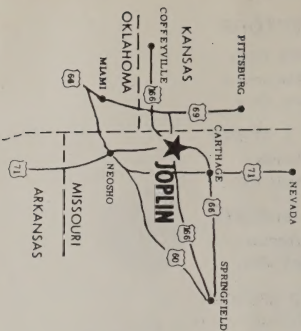

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy bull or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller. Cows with calves at foot even though bred are not given any guarantee.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any other animal later substituted.
5. All animals are sold to comply with the laws regulating tuberculosis and Bangs disease of the state or country into which they may be shipped.
6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk or loss or injury after animal is bid off.
